B. Morse et al. Appl. No. 10/711,358

## Remarks

Claims 1-19 are pending in the application, with claims 1, 15, 17, 18, and 19 being the independent claims. The amendments above do not add new matter and it is respectfully requested that they be entered.

## Restriction Requirement

In response to the requirement for election of a single invention, Applicants provisionally elect Group I, claims 1-14, 17, and 19. Applicants respectfully request reconsideration of the Restriction Requirement and consideration of claims 15 and 18 with Group I. Claims 15 and 18 recite methods, however, the methods are defined by the use of a drive unit having a motorized internal mechanism adapted to impart rotary motion to the drive unit and a sheet for use with the drive unit. Thus, the search required for claims 15 and 18 will be the same search the Examiner is conducting for the claims of Group I.

## Conclusion

Applicants believe that a full and complete reply has been made to the Restriction Requirement and that the present application is in condition for allowance. If the Examiner believes, for any reason, that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at the number provided.
